PERMIT REQUIREMENT CHECK LIST FOR COMMERCIAL AND/OR INDUSTRIAL BUILDING PERMITS

THE FOLLOWING **MUST** BE PROVIDED BY EITHER THE CONTRACTOR, PROPERTY OWNER, OR CONTRACTOR OR PROPERTY OWNER'S REPRESENTATIVE **BEFORE** A BUILDING PERMIT APPLICATION WILL BE ACCEPTED BY PERMIT CLERK.

1. **Proof of ownership of land:**

The applicant must provide a contract for deed, warranty deed, or tax statement, inclusive of a complete legal description or parcel identification number.

2. **Letter of Authorization:**

If applicant is not the owner of the property or a licensed contractor, the applicant must have a site specific, signed and notarized, letter of authorization giving the owner's agent permission to obtain the necessary building permits for the project.

Notice: Any improvements with a market value of \$ 75,000 or more require a minimum Class B contractor (Building Contractor) to obtain the building permit, and no sub-contractor permits may be issued to owner/builders.

3. **Owner Builder Affidavit:**

This affidavit is required by the same law that exempts property owners from the requirement to hold a valid contractors license. If the property owner is going to do any portion of work (i.e.: construction, electrical, plumbing, or a/c...) they are required to sign this document, stating they have read, understand and are accepting the same responsibilities contractors bear for that portion of the work the owner builder permit covers. Some of these responsibilities include federal income tax, social security taxes, and worker's compensation insurance requirements for any employees.

4. **Owner's Affidavit:** (Regarding Notice of Commencement)

A notice of commencements is required for any improvement to real property having a market value of 2,500 dollars or more. By providing this document, you are duly notified that you are required by law to provide this office a copy of your certified notice of commencement before the first inspection can be performed on your project. You may wish to provide the Notice of Commencement at the time of permit application.

NOTICE: Consult your finance company or loaning institution prior to filing a notice of commencement if the project is being funded.

5. **Signed and Sealed Professional Boundary Survey:**

Provide a signed and sealed professional boundary survey.

6. **Civil Engineering:**

Provide plans for all infrastructure supporting the project, inclusive of drive way connections, parking areas, interior traffic circulation, pedestrian walkways, potable watersupply, sewage collection, electrical supply and the storm water management system. Provide a surface water management permit from the appropriate Water Management District; or provide a letter of exemption for the storm water management permit from the appropriate Water Management District.

7. **3 copies of site plan.**

Provide a to scale site plan, depicting: all structures; the dimensions of all existing or proposed structures; the distances of all structures from all property lines; required off street parking and loading areas; location of all utilities; all drainage infrastructure; signage; pedestrian sidewalks, and connection to the public road system consistent with Chapter 50, Article IX, of the Land Development Regulations for county roads, and F.D.O.T. specifications for connection to state roads .

Please see attached check list (page 7) for the minimum details required to be shown on your site plan to enable it to be acceptable to the permit clerk and Zoning Officer.

8. **Zoning Approval within Municipalities (Inglis and Yankeetown)**

For property located within the boundary of a municipality, applicable evidence of municipal approval must be provided before the Levy County Development Department can process the permit application.

9. **2 Complete Sets of Plans and Supporting Construction Documents,**

Provide 2 complete sets of engineer or architect signed and sealed plans (each page must bear signature and seal) for building construction consistent with the latest edition of the Florida Building Code, along with all other required, supporting documents such as, but not limited to: Wind Load Calculations; Truss Engineering, V-Zone Certificates; Flood Proofing Certification; Energy Forms. Plans must state the Design Wind Speed, and that the Design is in Compliance with the latest Edition of the Florida Building Code.

NOTE: **PLANS MUST BE BOUND IN SETS**

10. **Americans with Disability Act:**

All Plans must show compliance with Accessibility Requirements Consistent with the “Florida Accessibility Code For Building Construction”

11. **Fire Safety:**

All commercial or industrial plans must be reviewed for fire safety and signed by a certified Fire Safety Inspector or Fire Marshall before permit will be issued. All Plans shall include the specifications for fire protection consistent with NFPA 101, and state that the drawings meet the requirements of NFPA 101.

12. **Energy Compliance Certification:**

Provide Energy Compliance Certification Form consistent with the “Florida Energy Efficiency Code for Building Construction”. Signature and Seal by a Registered Architect as required by code.

NOTE: Small commercial projects or additions less than 2500 sq. Ft. may use Florida Residential Compliance Method. All applicants must provide a minimum of two signed copies.

13. Waste Water Permit Required:

Provide an Onsite Sewage Treatment Disposal System Permit (Septic Tank) from the Department of Health, Environmental Health Division; or provide construction plans and D.E.P permit for package treatment plant; or letter of commitment from a “Special District” or Municipality to provide central services to the project site. Provide Industrial Waste Permit or Environmental Resource Permit as applicable.

Note: You must provide documentation of the final approval by the Department of Health for any modifications to an existing system, or of the final inspection of a newly installed system that was required for the project, prior to the request for final inspection.

14. Potable Water Approval:

The proposed potable water source must be approved by the Health Department or the D.E.P prior to requesting the final inspection.

Exception: When a letter of commitment to provide services is provided by a Municipality or Special District.

15. Driveway/Connection Permit:

Driveway/Connection Permits for connection to the county road system are obtained through the Development Department. Connection to the state road system are obtained from the Florida Department of Transportation.

16. Disclaimer of Liability Due to Flooding and Mandatory Flood Insurance Purchase:

This document indicates that although Levy County has a flood prevention ordinance, there are no assurances implied that compliance with the ordinance is a guarantee that you will never flood and;

That flood insurance is mandatory for all federal or federally related financially assisted buildings that are located within a Special Flood Hazard Area. (SFHA)

17. Unimproved Roads:

This document provides written notice that Levy County is not responsible for maintaining roads not currently in the maintenance system; and

THE FOLLOWING ARE ADDITIONAL REQUIREMENTS IF THE PROJECT IS LOCATED WITHIN A FLOOD ZONE

18. If your property is located in the regulatory flood way, or the 100 year flood plain adjacent to the Suwannee River, you will need to acquire an Environmental Resource Permit from the Suwannee River Water Management District prior to issuance of building permits.

19. Professional design (architect or engineer sealed) plans and a completed V-Zone Certificate are required if located in velocity zone (a.k.a.: V-Zone or Coastal High Hazard Zone).

20. Elevation Certificate Required:

An “Elevation Certificate” must be provided to the office within 21 days after finished floor is established (A-Zones); or 21 days after the placement of the lowest horizontal structural member (V-Zones). No inspections are permitted to be made for work done beyond this point of construction unless and until a completed (signed and sealed) copy is in the office file.

Note: It is well advised to call the project engineer or surveyor to document compliance with the elevation requirement prior to the placement of concrete slabs, or completely decking wood floors. The certification of elevation should be done as early as possible to avoid costly corrective measures.

*****ALL BUILDING PLANS MUST INCLUDE THE FOLLOWING*****

- 1. Site plan.**
- 2. Foundation Plan.**
- 3. Elevation View of All Sides.**
- 4. Floor Plan, including wall thicknesses, window and door sizes, room dimensions.**
- 5. Typical wall cross section, and any other necessary sectional views.**
- 6. Lintel schedule for masonry bearing walls (if applicable).**
- 7. Header schedule for wood bearing walls (if applicable).**
- 8. Sufficient structural details, including size and location of all reinforcing steel.**
- 9. Nailing or screwing pattern for all structural panels (floors, walls and roof sheathing or coverings).**
- 10. Truss engineering, roof framing plan, floor framing plan, as applicable.**
- 11. Electrical lay-out, including: service location, outlets, switches, lights, smoke detectors and alarms, main panels, sub-panels (if included).**
- 12. Detail of electrical service, including load calculations and grounding.**
- 13. Plumbing fixture lay-out, including: water closets, sinks, washing machines, floor drains, water heaters, laundry tubs, showers, tubs showers, water coolers, drinking fountains, eye washes, and similar fixtures (if included).**
- 14. Piping diagram, including potable water distribution and drain, waste and vent.**
- 15. Duct plans for supply air, return air, and fresh air make-up consistent with A.S.H.R.A.E. Manual D, and A.S.H.R.A.E. 62.**

PART I:

WARNINGS AND DISCLAIMER OF LIABILITY DUE TO FLOODING

The degree of flood protection required by the Flood Prevention Ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by manmade or natural causes. This ordinance does not imply that land outside the areas of special flood hazard or uses permitted within such areas will be free from flooding or flood damages. This article of the land development code shall not create liability on the part of the county or by any officer or employee thereof for any flood damages that result from reliance on the flood damage prevention ordinance or an administrative decision lawfully made thereof.

PART II:

MANDATORY PURCHASE REQUIREMENT

The mandatory purchase requirement applies to all forms of federal or federally related financial assistance for buildings located in a Special Flood Hazard Area (SFHA). This requirement affects loans and grants for the purchase, construction, repair, or improvement of any publicly or privately owned building in the SFHA, including machinery, equipment, fixtures, and furnishings contained in such buildings.

I have read and understand the written “Disclaimer of Liability Due to Flooding” and written “Mandatory Purchase Requirement”.

**LEVY COUNTY LAND DEVELOPMENT REGULATIONS
DIVISION 4. DISTRICT REGULATIONS
LOT, YARD AND HEIGHT REGULATIONS**

IT IS THE RESPONSIBILITY OF THE LANDOWNER TO ESTABLISH THE TRUE BOUNDARIES OF THE PROPERTY, TO ENABLE THE DEVELOPMENT DEPARTMENT TO CONFIRM COMPLIANCE WITH THE SETBACK REQUIREMENTS. ON SMALLER PARCELS, OF 3 ACRES OR LESS THIS IS MANDATORY AND REQUIRED BY FIRST INSPECTION. THIS MAY BE ACCOMPLISHED BY THE USE OF STRING OR WIRE BETWEEN 3 (THREE) CORNERS OF THE PROPERTY, OR BY THE STAKING OUT OF THE BUILDING FOUNDATION BY A LICENSED SURVEYOR. REGARDLESS OF THE SIZE OF THE PARCEL, WHEN THERE REMAINS QUESTIONS AS TO THE COMPLIANCE OF SET-BACKS, THE BUILDING OFFICIAL OR BUILDING INSPECTOR MAY REQUIRE A LICENSED PROFESSIONAL SURVEYOR TO LOCATE THE FOUNDATION ON A SURVEY MAP AND PROVIDE IT TO THE OFFICE OF THE BUILDING OFFICIAL. THE SURVEY TO BE AT THE LANDOWNER’S EXPENSE.

THE BUILDING DEPARTMENT STRONGLY RECOMMENDS THAT ALL APPLICANTS FOR BUILDING PERMITS HAVE THE PROPERTY SURVEYED AND PROVIDE A TO SCALE SITE PLAN PREPARED BY A LICENSED PROFESSIONAL.

DISCLOSURE STATEMENT CONSISTENT WITH FS 489.103 (7)

I understand that state law requires construction to be done by a licensed contractor and I have applied for an owner/builder permit under an exemption from the law. The exemption specifies that I, as the owner of the property listed below, may act as my own contractor with certain restrictions even though I do not have a license.

I understand that building permits are not required to be signed by a property owner unless he or she is responsible for the construction and is not hiring a licensed contractor to assume responsibility.

I understand that, as an owner/builder, I am the responsible party of record on the permit. I understand that I may protect myself from potential financial risk by hiring a licensed contractor and having the permit filed in his or her name instead of my own name. I also understand that a contractor is required by law to be licensed in Florida and to list his or her license numbers on the permit and contracts.

I understand that I may build or improve a one-family or two-family residence or a farm outbuilding. I may also build or improve a commercial building at a cost not to exceed \$75,000.00. The building or residence must be for my own use or occupancy. It may not be built or substantially improved for sale or lease. If a building or residence that I have built or substantially improved myself is sold or leased within one (1) year after the construction is complete, the law will presume that I built or substantially improved it for sale or lease, which violates the license exemption.

I understand that, as the owner/builder, I must provide direct, onsite supervision of the construction.

I understand that I may not hire an unlicensed person to act as my contractor or to supervise persons working on my building or residence. It is my responsibility to ensure that the persons whom I employ have the license required by law and by county or municipal ordinance.

I understand that it is a frequent practice of unlicensed persons to have the property owner obtain an owner/builder permit that erroneously implies that the property owner is providing his or her own labor and materials. I, as an owner/builder, may be held liable and subjected to serious financial risk for any injuries sustained by an unlicensed person or his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an owner/builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

I understand that I may not delegate the responsibility for supervising work to licensed contractor who is not licensed to perform the work being done. Any person working on my building who is not licensed must work under my direct supervision and must be employed by me, which means that I must comply with laws requiring the withholding of federal income tax and social security contributions under the Federal Insurance Contributions Act (FICA) and must provide worker's compensation for the employee. I understand that my failure to follow these laws may subject me to serious financial risk.

I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern owner/builders as well as employers. I also understand that the construction must comply with all applicable laws, ordinances, building codes, and zoning regulations.

I understand that I may obtain more information regarding my obligations as an employer for the Internal Revenue Service, the United States Small Business Administration, the Florida Department of Financial Services, and the Florida Department of Revenue. I also understand that I may contact the Florida Construction Industry Licensing Board at 1-850-487-1395 or www.myflorida.com/dbpr/pro/cilb/ for more information about licensed contractors.

I am aware of, and consent to, an owner/builder building permit applied for in my name and understand that I am the party legally and financially responsible for the proposed construction activity at the following address: _____

I agree to notify the **Levy County Development Department** immediately of any additions, deletions, or changes to any of the information that I have provided on this disclosure.

Licensed contractors are regulated by laws designed to protect the public. If you contract with a person who does not have a license, the Construction Industry Licensing Board and Department of Business and Professional Regulation may be unable to assist you with any financial loss that you sustain as a result of a complaint. Your only remedy against an unlicensed contractor may be in civil court. It is also important for you to understand that, if an unlicensed contractor or employee of an individual or firm is injured while working on your property, you may be held liable for damages. If you obtain an owner/builder permit and wish to hire a licensed contractor, you will be responsible for verifying whether the contractor is properly licensed and the status of the contractor's general liability and worker's compensation insurance coverage.

Before a building permit can be issued, this disclosure statement must be completed and signed by the property owner and submitted to the local permitting agency responsible for issuing the building permit. A copy of the property owner's driver license, the notarized signature of the property owner, or other type of verification acceptable to the local permitting agency is required when the permit is issued.

I hereby acknowledge that **I have read and understand** the above **Disclosure Statement** on this _____ day of _____, 20_____.

EXEMPTION FOR ELECTRICAL LICENSING

**DISCLOSURE STATEMENT FS 489.503 (6) PART II,
F.S.**

State law requires electrical contracting to be done by **licensed** electrical contractors. You have applied for a permit under an **exemption** to that law. The exemption allows you, as the owner of your property, to act as your own electrical contractor even though you do not have a license. You may install electrical wiring for a farm out building or a single-family or duplex residence. You may install electrical wiring in a commercial building where the aggregate construction cost of which is under \$25,000. The home or building must be for your own use and occupancy. It may not be built for sale or lease. If you sell or lease more than one building you have wired yourself within 1 year after the construction is complete, the law will presume that you built it for sale or lease, which is a violation of this exemption. You may not hire an un-licensed person as your electrical contractor. Your construction shall be done according to building codes and zoning regulations. It is your responsibility to make sure that people employed by you have licenses required by state law **and** by county or municipal licensing ordinances.

I acknowledge that as an owner/builder, I _____ am

responsible to actually physically do the work for which I have requested the electrical permit. I understand that if I am not physically doing the work or physically supervising free labor from friends or relatives, that I must hire a licensed contractor (i.e. Certified or Registered Electrical Contractor). I further understand that the violation of not physically doing the work, not being present and supervising the electrical work, or the use of un-licensed contractors at the construction site, will cause the project to be shut down by the inspection staff of the Levy County Building Department and the revocation of the electrical permit.

I hereby assume full responsibility as the owner/builder contractor, and will personally perform or supervise all work covered by the electrical permit requested under the license exemption.
